				<input type="radio"/> Yes <input type="radio"/> No				
				<input type="radio"/> Yes <input type="radio"/> No				
<b>Total</b>								
<b>Reason Code</b>								
1. Admission (Initial) 2. Bed hold (Covered) 3. Bed hold (Noncovered) 4. Change in Resident RUG Rate		5. Change in Medicare qualified stay 6. Discharge (Death) 7. Discharge (Home) 8. Discharge (Hospital)			9. Discharge (Nursing facility) 10. End of benefit 11. Readmission 12. Hospice (Noncovered)		13. Transfer from another NF 14. Swing bed	

## FOR HEALTH PLAN USE \*Health plans may require additional documentation for Medicare stays – refer to instructions

AUTHORIZATION NUMBER	RECEIVED BY	DATE RECEIVED
BENEFIT PERIOD MAXIMUM DAYS	NUMBER OF DAYS HEALTH PLAN IS LIABLE FOR	RETURN FAX SENT TO NURSING FACILITY

End of health plan liability. Health plan faxes form to DHS at 651-431-7767 and copies to facility.

# Nursing Facility (NF) Communication Form – Instructions for Use

## Purpose of the Nursing Facility (NF) Communication Form (DHS-4461)

- Nursing facilities, health plans and the MN Department of Human Services (DHS) use the NF Communication Form (DHS-4461) to communicate nursing facility (NF) liability
- Before DHS can pay Medicaid NF claims, the health plan provides documentation via the DHS-4461 to DHS demonstrating it has paid for 100 days (SNBC) or 180 days (MSHO/MS+) of skilled NF or NF services
- DHS receives a copy of the DHS-4461 from the health plan, verifies the information documented by the health plan, and updates MMIS to reflect the health plan has met its obligation. Updating MMIS allows nursing facilities to bill DHS and receive payment

## Instructions for use by nursing facilities and health plans

### Admission

- Admission to nursing facility is authorized by the pre-admission screening (PAS) process
- Upon each admission, the nursing facility uses the Eligibility Verification System (MN-ITS) to determine managed care enrollment (including health plan and program enrollment) and health plan liability for the stay
- Upon admission of member, the nursing facility estimates the member's Resident RUG Rate. If the member's official Resident RUG Rate is different, the nursing facility uses the NF Communication Form to notify the health plan within three business days
- When the member's stay changes in terms of Resident RUG Rate or as a Medicare qualified stay, the nursing facility updates the NF Communication Form and sends it via fax to the health plan
- The nursing facility determines the last time the member stayed at a nursing home
- The nursing facility determines member's Medicare eligibility
- The nursing facility sends the NF Communication Form to the health plan by the next business day after admission
- The health plan determines its liability and returns the NF Communication Form via fax to the nursing facility within three business days

### Change in member status

- The nursing facility faxes the completed form to the health plan on completion of the benefit period or member's discharge
- The health plan notifies DHS within one business day via fax of a member's exhaustion of benefit

### Discharge

When a member is discharged:

- The nursing facility faxes the NF Communication Form to the health plan with the discharge information entered onto the form
- The health plan records the current liability information for the member

### Medicare Stays

- Contact health plan for instructions and required documentation for Medicare stays

### Pre-admission screening process

- Level of care is determined by the pre-admission screening (PAS) process; not by this form

Health Plan	Position Contact	Phone Number	Fax Number
