GENERAL INFORMATION

Zoning Information. Refer to the Itasca County Zoning Ordinance for complete zoning information. Other good resources are *Northwood's Guide for Property Owners in Itasca County* and *Taking Care of Our Waters*. Permits are valid for 12 months to start construction. Fees are listed on the last page of this handout.

County Jurisdiction. Itasca County's zoning jurisdiction does not include incorporated municipalities. Itasca County enforces SSTS regulations in municipalities that do not have sanitation ordinances as per Minnesota Statute 115.55.

Maintenance, Alterations, or Remodeling. Zoning Permits are not required for normal maintenance of a structure (replacement of windows, siding and shingles) that costs less than 50 percent of the structure's market value.

Well Permits. The Minnesota Department of Health – Well Management ((800) 383-9808) issues well permits. Licensed well drillers can obtain permits for property owners. Water testing kits are available at Environmental Services.

Electrical Inspections. Contact Steve Bartlett at 218-591-1616 (7:00am to 8:30am M-F for scheduling inspections and questions. Homeowners forms and permits can be obtained on Web site: <http://www.dli.mn.gov/CCLD/PDF/eliElectricalInspectorDirectory.pdf> (note: space between 'eli and electrical').

General Storm Water Permit for Construction Activity. If the construction activity (clearing, grading and excavation activities) will result in the disturbance of one acre or more, the property owner is responsible to obtain this permit from Jim Dexter, Wastewater Regulatory Compliance / Industrial Stormwater contact, at the MPCA (218) 529-6253 prior to construction.

SALE OR TRANSFER OF LAND

MINIMUM PARCEL SIZE

Every parcel has a minimum parcel size, which is determined by the zoning district a parcel is located in. Contact Environmental Services for more information (327-2857). Also, see page 9 of this handout for more subdivision information.

- ◆ **CONFORMING PARCELS** are parcels that meet the minimum parcel size requirements of the Zoning Ordinance. These parcels can be developed provided land use and setback requirements are maintained.
- ◆ **NONCONFORMING PARCELS OF RECORD** are parcels that do not meet the current minimum parcel size requirements, but were legally recorded prior to zoning, which came into effect November 1, 1969, or met the minimum parcel size requirements at the time it was legally recorded. These parcels can be developed if documentation is provided to Environmental Services when a Zoning Permit is applied for and current setbacks are met. See Article 4 of the Zoning Ordinance for more information.
- ◆ **NONCONFORMING PARCELS** are parcels that did not meet the minimum parcel size requirements of the Zoning Ordinance that was in effect at the time the parcel was recorded. A variance is required to develop a nonconforming parcel, and variances are not guaranteed to be approved.

SEPTIC SYSTEM

When a property is sold or transferred in Itasca County, a septic system (SSTS) Certificate of Compliance must be filed with the County within two years of the closing, unless the SSTS is found to be an imminent health threat. If the SSTS is found to be an imminent health threat, it must be upgraded and certified compliant within 10 months of closing. If the seller does not provide a Certificate of Compliance at the time of closing, an escrow account must be established or the seller and buyer may establish a written agreement or contract to replace or upgrade the SSTS within the allotted time frame. Privies must be designed to meet or exceed the requirements in Minn. Rules 7080.2150 and 2280 and shall comply with the structural or sanitation setbacks, whichever is more restrictive.

ZONING AND SEPTIC SYSTEM PERMITS

SOME TERMS TO KNOW

- ◆ **SHORELAND** is land located within 1,000 feet from the ordinary high water level (OHWL) of a lake, pond, or flowage or land located within 300 feet from a river or stream. If property of interest is shoreland, then Shoreland Overlay Zoning District regulations apply. See Article 5 of the Zoning Ordinance.
- ◆ **SHORE IMPACT ZONE** is land between the OHWL and a line parallel to it at 50 percent of the structure setback.
- ◆ **BLUFFS** are embankments in the shoreland that rise 25 feet or more above the OHWL and have a grade of an average 30 percent or more towards the lake. New structures shall be located 30 feet from the top of a bluff. No structures except stairways and landings shall be placed within a bluff impact zone, which is the land located within 20 feet from the top of a bluff.
- ◆ **VEGETATIVES BUFFERS** are required. See Section 5.9.1 of the Zoning Ordinance.
- ◆ **VEGETATION ALTERATIONS** are regulated. See Section 5.9.1 of the Zoning Ordinance.

JURISDICTIONS

- ◆ **WATER (LAND BELOW THE OHWL)** – Minnesota DNR – (218) 327-4106
- ◆ **WETLANDS** – Itasca County Soil and Water Conservation District – (218) 326-0017
- ◆ **SHORELAND (LAND ABOVE THE OHWL)** – Environmental Services – (218) 327-2857

NEW CONSTRUCTION ON VACANT PROPERTY

To attain a Zoning Permit from Environmental Services, provide the information listed below. Permits shall be validated upon showing compliance with applicable setbacks and completion of a septic system Certificate of Compliance. To obtain a Certificate of Compliance, a septic installer can call Environmental Services and request an inspection before covering the newly installed septic system. Advanced notice is necessary for timely inspection. Per Section 3.2.11(B) of the Itasca County Sanitation Ordinance, the property owner shall provide a signed agreement to the Zoning Officer which indemnifies and saves the County, holding it harmless from all losses, damages, costs and charges that may be incurred by the County due to the failure of the permittee to conform to and comply with the provisions of the Ordinance.

If the parcel does not front on a publicly owned and maintained road, a landowner must sign a notice of limited public services before a Zoning Permit will be issued.

- Driveway
- If within 1,000 feet of lake, include Bluffs and Proposed and/or Existing Vegetative Buffers

IMPROVEMENTS, REPLACEMENTS, OR ALTERATIONS OF STRUCTURES

To attain a Zoning Permit from Environmental Services, provide the following information. Permits shall be validated upon showing compliance with applicable setbacks.

- Legal Description
- Parcel Identification Number (PIN)
- Property Address / Emergency Number (blue sign number)
- Fee—check or cash
- Septic Design and Management Plan or Certificate of Compliance from a certified septic professional, if permit is for Bedroom Addition or Dwelling Replacement. A list of certified septic professionals may be obtained from Environmental Services.
- Detailed Site Plan**
 - Property boundaries
 - Acreage
 - Road(s)
 - Driveway
 - Bodies of water
 - Existing structures
 - Proposed structures
 - Distances of proposed from property lines
 - If within 1,000 feet of lake, include Bluffs and Proposed and/or Existing Vegetative Buffers
 - Dimensions of impervious surfaces

Improvements, Replacements, or Alterations of Nonconforming Structures

Per Section 4.3 of the Zoning Ordinance (Effective: 03/15/09), any structure or use lawfully existing upon the adoption date of this Ordinance or an amendment thereto that is not in conformity with the provisions of this Ordinance may be continued in its use, at the size and in the manner of operation existing upon the date of adoption of this Ordinance with no additional Variance.

Nonconforming structures may continue through repair, replacement, restoration, maintenance, or improvement provided a Variance is not required and that is in accordance with Section 4.3. All nonconforming structures shall not be expanded, enlarged, extended, intensified, newly constructed, structurally altered, reconstructed, substituted, relocated, or moved nor existing uses changed without coming into conformity with the provisions of this Ordinance, with the exceptions specifically listed in Sections 4.4-4.8.

If you are interested in more information, see Article 4 (Nonconforming Uses, Structures, and Parcels) of the Zoning Ordinance.

ALTERATION OR REPLACEMENT OF SEPTIC SYSTEM

To attain a Septic Permit, provide the information listed below. Permit shall be validated upon showing compliance with applicable setbacks and requirements. To obtain a Certificate of Compliance, a septic installer can call Environmental Services to request an inspection before covering the newly installed or altered septic system. Advanced notice is necessary for timely inspection.

- Legal Description
- Parcel Identification Number (PIN)
- Property Address / Emergency Number
- Septic Design and Management Plan from certified designer
- Indemnification agreement (Section 3.2.11(B), Sanitation Ordinance), if septic system is installed by an uncertified installer or property owner
- Fee—check or cash

COMMERCIAL CONSTRUCTION PERMITTED IN THE ZONING DISTRICT

To attain the appropriate permits for commercial uses permitted in the parcel's Zoning District, provide the following information.

- Driveway Approach Permit from Itasca County Transportation Department (218-327-2853)
- Certificate of Survey if parcel is newly created and less than 5 acres
- Legal Description
- Parcel Identification Number (PIN)
- Septic Design and Management Plan from certified designer – the design is based on information supplied by the designer and will not be verified by Itasca County for accuracy
- Property Address / Emergency Number OR apply for address when applying for permit. Sheriff's Office will notify property owner of new address by correspondence. Blue signs are installed by Sheriff's Office 6-18 months after the address is assigned.
- Handicap Accessibility Permit – Blueprints showing handicap accessibility must be provided for review by a State Inspector and approved before issuance of the Zoning Permit
- Fees—check or cash (Zoning, Septic System, Emergency Number, Handicap)
- Detailed Site Plan**
 - Property boundaries, Driveway, septic, well
 - Acreage
 - Road(s)
 - Bodies of water
 - Existing structures
 - Proposed structures
 - Distances of proposed from property lines
 - If within 1,000 feet of lake, include Bluffs and Proposed and/or Existing Vegetative Buffers
 - Dimensions of impervious surfaces

SHORELAND ALTERATION PERMITS

PERMITS ARE REQUIRED FOR THE FOLLOWING ACTIVITIES IN SHORELANDS

- ◆ Movement of 10 or more cubic yards of material within the shore impact zone.
- ◆ Movement of 50 or more cubic yards of material within the shoreland. If a zoning permit has been issued, the necessary work related to the permit and other activities, such as lawn or driveway, would be covered by the zoning permit.
- ◆ Installation of lake access roads, beach sand blankets, retaining walls, or riprap.
- ◆ Ice ridge removal.

To attain a Shoreland Alteration Permit from Environmental Services, provide the information listed below. Permits shall be validated upon site inspection by Environmental Services and Soil and Water Conservation District staff. A representative for the property owner must be present at the inspection, which is typically on the second and fourth Mondays of the month from May to November. The property owner must contact DNR for any work in the water.

| <input type="checkbox"/> Parcel Identification Number (PIN) | <input type="checkbox"/> Recent photo of area before alteration |
| <input type="checkbox"/> Fee—check or cash | |

SHORELAND STRUCTURES REGULATED

- ◆ Detached Ground-Level Patio Platform – Section 5.12 of Zoning Ordinance
- ◆ Dry Saunas – Section 5.13 of Zoning Ordinance
- ◆ Gazebos – Section 5.13 of Zoning Ordinance
- ◆ Shore Access Stairways, Lifts, and Landings – Section 5.10 of Zoning Ordinance
- ◆ Water-Oriented Accessory Structures (Boathouses) – Section 5.11 of Zoning Ordinance

To attain a Zoning Permit from Environmental Services for the structures listed above, the following information must be provided. To attain a water-oriented accessory structure Zoning Permit, applicant must submit the following information, stake out the site, and arrange a site inspection with Environmental Services staff.

VARIANCES

A variance is required when proposed construction, alteration, or replacement does not conform to requirements set forth the Itasca County Zoning Ordinance. A variance is granted on the basis of hardship and/or practical difficulty. The granting of a variance is not guaranteed. Fees are not refundable, even if a variance is denied. Variances are obtained by a process which includes submission of the following required information and a public hearing. For more information, see Article 19 of the Zoning Ordinance.

Applicants must complete the following on a Variance Application:

- ◆ Variance would be a reasonable use of the property or there is a practical difficulty to the land owner such that the variance should be granted, because....
- ◆ The circumstances which justify the variance are unique to the property and not created by the applicant because...
- ◆ Issuance of the variance will maintain the essential character of the locality, because...
- ◆ Alleged hardship involves more than economic consideration, because...
- ◆ The variance will be in keeping with the intent and general purpose of the official land use controls, because... (Refer to the Itasca County Zoning Ordinance, Itasca County Comprehensive Land Use Plan, and the like. The Ordinance and Plan can be found online by doing a Google search for the full titles.)

Application

To apply for a Variance, the following information must be submitted to Environmental Services by 4:30 p.m. on the Monday before the second Wednesday of the month to get on the following month's Board of Adjustment agenda.

- | | |
|--|---|
| <ul style="list-style-type: none"><input type="checkbox"/> Documentation of vested interest if applicant is not the property owner<input type="checkbox"/> Completed Zoning Permit Application (See Zoning and Septic System Permits section above)<input type="checkbox"/> Completed Variance Application<input type="checkbox"/> Fee – \$475 payable to “Itasca County Auditor / Treasurer” by check or cash<input type="checkbox"/> If in the Shoreland Overlay Zoning District:<ul style="list-style-type: none"><input type="checkbox"/> Mandatory Lakeshore Mitigation<input type="checkbox"/> Erosion control plan<input type="checkbox"/> Septic system Certificate of Compliance or Septic Design and Management Plan to install or upgrade | <ul style="list-style-type: none"><input type="checkbox"/> Detailed Site Plan, including:<ul style="list-style-type: none"><input type="checkbox"/> Property boundaries<input type="checkbox"/> Acreage<input type="checkbox"/> Road(s)<input type="checkbox"/> Bodies of water<input type="checkbox"/> Existing structures<input type="checkbox"/> Proposed structures<input type="checkbox"/> Distances of proposed from property lines<input type="checkbox"/> If within 1,000 feet of lake, include Bluffs and Proposed and/or Existing Vegetative Buffers<input type="checkbox"/> Dimensions of impervious surfaces<input type="checkbox"/> Septic system site<input type="checkbox"/> Well<input type="checkbox"/> Driveway |
|--|---|

Processing

- ◆ **Public hearing.** The Planning Commission/Board of Adjustment meets the second Wednesday of every month at 9:00 a.m. in the County Board Room of the Courthouse. To be on the agenda, a completed application, all required information and fee must be submitted by the Monday preceding the second Wednesday of the previous month. A representative must be present at the hearing to address the application.
- ◆ **Notices.** Notice is sent to area property owners, Organized Townships, and applicable parties for recommendations.
- ◆ **Site inspection. Before the hearing,** the Board of Adjustment inspects the site. The proposed construction's location on the property must be identified with clearly visible corner stakes. If corners are not staked, the application can be tabled and a re-inspection will be required at an additional charge. No

one can be prohibited from coming on to the property for the site inspection.

- ◆ **Appeal.** There is a 30-day appeal period of the Board of Adjustment's decision to District Court as per Section 18.4.2 of the Zoning Ordinance: “All decisions by the Board of Adjustment in granting Variances or in hearing appeals from any administrative order, requirement, or decision shall be final except that any aggrieved person or persons or any department, board, or commission of the jurisdiction, or of the State shall have the right to appeal within 30 days, after the receipt of notice of the decision, to the District Court in the County in which the land is located, on questions of law and fact.”

CONDITIONAL USES

A conditional use is a land use or development that would not be appropriate generally or would not be appropriate without restriction throughout the Zoning District. Conditional Use Permit (CUP)

application fees are not refundable, even if the CUP is denied. CUPs are obtained by a process which includes submission of the following required information and a public hearing. For more information, see Article 21 of the Zoning Ordinance.

Uses not provided for within zoning districts

When a land use in any *zoning district is not specifically listed as a Permitted Use or Conditional Use, the land use may be considered as a Conditional Use. The applicant shall make a showing that the proposed use is similar to a Permitted Use or Conditional Use, consistent with the purpose of the zoning district in which the proposed use will be located, compatible with surrounding uses, and conforms to the Comprehensive Land Use Plan. The Zoning Administrator shall determine if the CUP Application is complete and submit complete applications for consideration by the Planning Commission. The Application shall be accompanied by the appropriate fee for a CUP. If the use is of a commercial nature and proposed for a residential zoning district (Rural Residential or Farm Residential), the Planning Commission shall hold a public hearing, evaluate the Application under the criteria in Article 21, and submit a report of its finding and recommendations to the County Board. The County Board shall hold a public hearing, evaluate the Application under the criteria in Article 21, consider the Planning Commission's report, and act on the Application. A notice of extension of the 60-day time deadline requirement of Minn. Stat. 15.99 shall be provided if necessary.

* Uses not specifically listed as permitted or conditional (Sections 5.6.4-5.6.5) are prohibited in Shoreland Overlay Zoning Districts.

Applicants must complete the following on CUP Application and are responsible to prove statements.

- ◆ Describe how the proposed use conforms to the Itasca County Comprehensive Land Use Plan. (Find online by Googling title.)
- ◆ Describe how the use is compatible with the existing neighborhood.

Processing

- ◆ **Public hearing.** The Planning Commission/Board of Adjustment meets the second Wednesday of every month at 9:00 a.m. in the County Board Room of the Courthouse. To be on the agenda, a completed

- ◆ Describe how the use shall not materially adversely impact air quality, water quality, or cause soil disturbance.
- ◆ Describe how the site has sufficient access for ingress and egress and is adequate for water supply and sewage treatment.
- ◆ Describe how the use shall not cause unsafe or unhealthy conditions.

Application

To apply for a CUP, the following information must be submitted to Environmental Services by 4:30 p.m. on the Monday before the second Wednesday of the month to get on the following month's Planning Commission agenda.

- Documentation of vested interest if applicant is not the property owner
- Completed Conditional Use Application
- If in the Shoreland Overlay Zoning District:
 - Mandatory Lakeshore Mitigation
 - Erosion control plan
 - Septic system Certificate of Compliance or Septic Design and Management Plan to install or upgrade
 -
 - Fee – \$475 payable to "Itasca County Auditor / Treasurer" by check or cash
 - If application is for a tower, see Article 14 of the Zoning Ordinance for additional application requirements and note the additional fee.
- Detailed Site Plan**
 - Property boundaries
 - Acreage
 - Road(s)
 - Bodies of water
 - Existing structures and conditions
 - Proposed development
 - Distances of proposed from property lines
 - If within 1,000 feet of lake, include Bluffs and Proposed and/or Existing Vegetative Buffers
 - Dimensions of impervious surfaces
 - Septic system site
 - Well
 - Driveway

application, all required information and fee must be submitted by the Monday preceding the second Wednesday of the previous month. A representative must be present at the hearing to address the application.

- ◆ **Notices.** Notice is sent to area property owners, the Organized Townships, and other applicable parties for recommendations.
- ◆ **Site inspection.** The Planning Commission inspects the site before the hearing. The proposed construction must have clearly visible corner stakes that identify the proposed construction's location on the property. If corners are not staked, the application can be tabled and a re-inspection will be required at an additional charge. No one can be prohibited from coming on to the property for the site inspection.
- ◆ **Appeal.** There is a 60-day appeal period of the Planning Commission's decision to District Court as per Section 18.4.1 of the Zoning Ordinance: "The Planning Commission's determination on Conditional Use Permits and decisions revoking Conditional Use Permits that are listed as a Conditional Use Permit in the Shoreland Overlay Zoning District and Zoning Districts shall be final. The County Board's determination on Conditional Use Permits that are not listed and are in a Rural Residential or Farm Residential Zoning District shall be final. Any aggrieved person may obtain judicial review by obtaining a writ of certiorari from the Court of Appeals within 60 days after the aggrieved party shall have received due notice of the proceeding and decision sought to be reviewed and by serving said writ appeal upon the Itasca County Auditor and any other adverse party within such period of 60 days.

SUBDIVIDING LAND

SUBDIVISION is when improved or unimproved land, which is divided for the purpose of sale, transfer, rent, or lease into two or more parcels, including Planned Unit Developments (PUDs) and Conservation Developments. Two basic methods of subdivision are addressed in the Zoning Ordinance—traditional and conservation development.

TRADITIONAL METHODS OF SUBDIVISION

Criteria, standards, and processing for traditional methods of subdivisions, such as, ‘metes and bounds’ conveyances, Minor Subdivisions, and Major Subdivisions are set forth in the Itasca County Subdivision Ordinance (Effective 8/1/2010).

Metes and Bounds Description is a description of real property containing directions and distances.

Minor and Major Subdivisions: Any division of real property that will create up to four parcels in a Government Lot or quarter-quarter section (forty) on or after September 1, 1997, may be processed as a minor subdivision or a major subdivision. Any division of real property that would create five parcels but not more than nine parcels in a Government Lot or quarter-quarter section on or after September 1, 1997, shall be processed as either a minor or major subdivision. Any division of real property that would create more than nine parcels in a Government Lot or quarter-quarter section on or after September 1, 1997, or requires any variation from any requirements set forth in this Ordinance or the Zoning Ordinance shall be processed as a major subdivision

Contact the Environmental Services Department, the Surveying and Mapping Department or See Article 3 of the Subdivision Ordinance (Effective: 08/01/2010) for more information.

CONSERVATION DEVELOPMENTS

Conservation development is a method of subdivision characterized by common open space and compact dwelling units that are clustered in groups. The purpose of a Conservation Development is to create greater community value through open space amenities for homeowners and protection of natural resources, while allowing for the residential densities with prevailing densities.

The number of units or lots in a Conservation Development determines whether the Conservation Development is a Minor Conservation Development or Major Conservation Development.

Minor Conservation Development is a conservation development that contains 10 or less dwelling units that is in compliance with all provisions of Article 15 of the Zoning Ordinance.

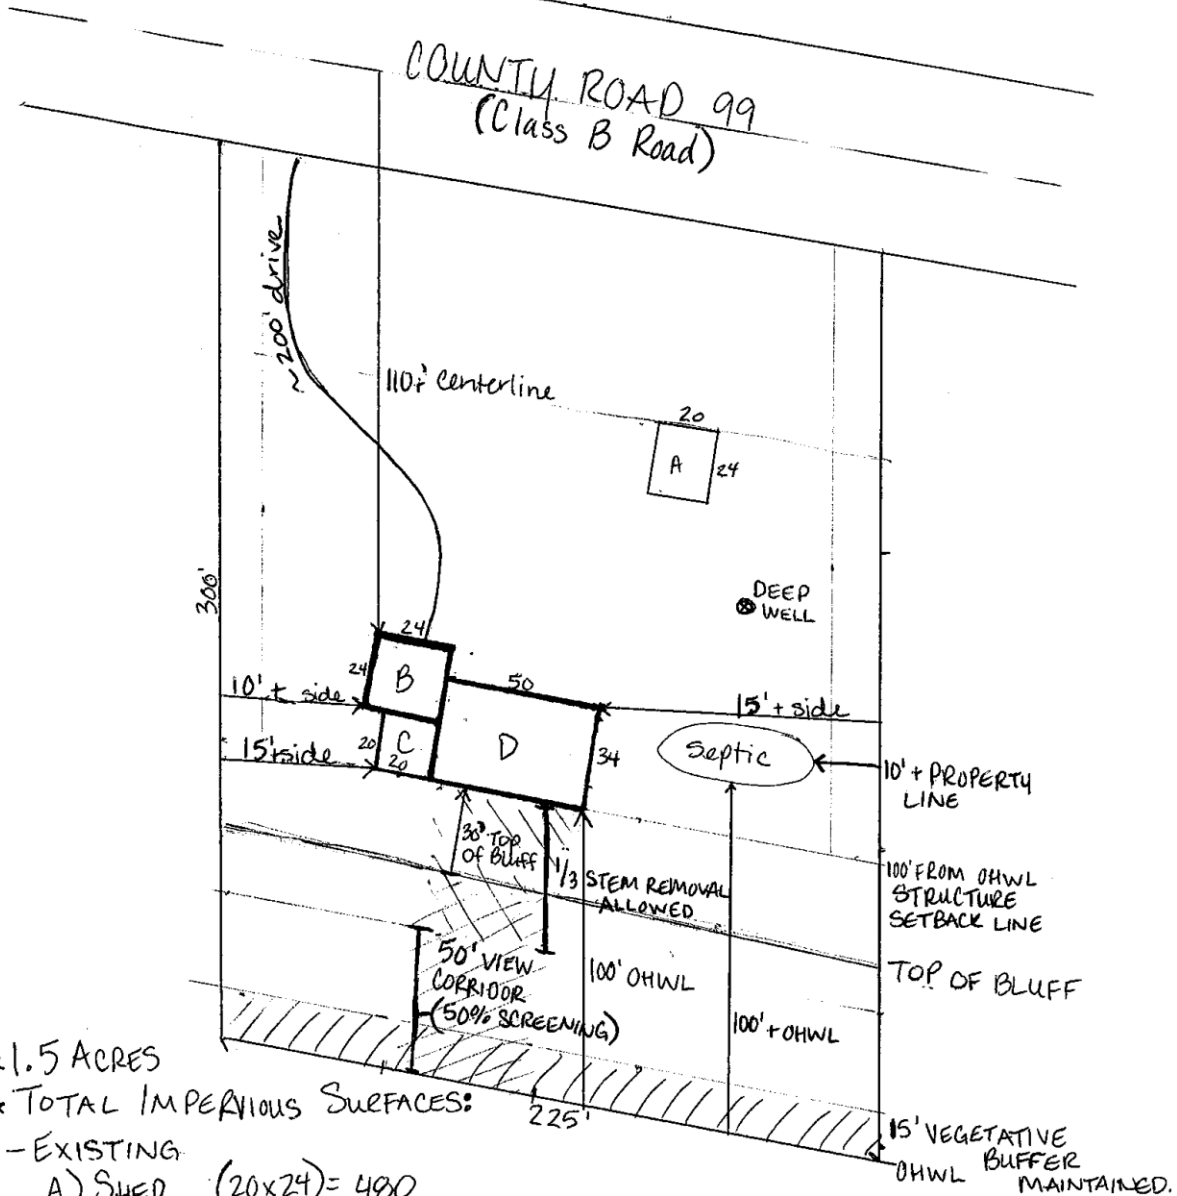

Major Conservation Development is a conservation development that contains 11 or more dwelling units and would require the processing of a Conditional Use Permit and Conservation Development Permit application as set forth in Article 15 of the Zoning Ordinance.

Non-compliant Minor Conservation Development is a conservation development that contains 10 or less dwelling units that is not in compliance with all provisions of Article 15 and would require the processing of a Conditional Use Permit and Conservation Development Permit application as set forth in Article 15 of the Zoning Ordinance.

The various types of Conservation Developments are as follows. For more information, see Article 15 of the Zoning Ordinance.

- ◆ Common Interest Communities (CIC)
- ◆ Residential Planned Unit Developments (PUD)
- ◆ Manufactured Home Parks or Developments
- ◆ Conversions
